ISO/IEC 27004:2009- Information Security Management Systems- Measurement: Fundamentals Course Outline

Program Overview

This 2-day program explains the concepts and basis of development and use of measures and measurement in order to assess the effectiveness of an implemented ISMS and controls or groups of controls, as specified in ISO/IEC 27001. Knowing the foundations in establishing, implementing and evaluating an effective Information security program will be featured based on the guidelines specified in ISO 27004:2009, which encourages the organization to provide reliable information to relevant stakeholders concerning its information security risks and the status of the implemented ISMS to manage these risks- both in long-term and short term.

Duration

2- Day Program
