## TOGAF 9.2- Foundation

Program Outline

### Program Overview

This 2-day program on TOGAF® 9 Foundation course is to provide validation that the candidate has gained knowledge of the TOGAF terminology, structure, and basic concepts, and understands his core principles of Enterprise Architecture and the TOGAF standard.

### Duration

2-day program

### Learning Objectives

Individuals certified at this level will have demonstrated their understanding of:

- The basic concepts of Enterprise Architecture and the TOGAF standard
- The core concepts of the TOGAF 9 standard
- The key terminology of the TOGAF 9 standard
- The ADM cycle and the objectives of each phase, and how to adapt and scope the ADM
- The concept of the Enterprise continuum, its purpose and constituent parts
- How each of the ADM phases contributes to the success of Enterprise Architecture
- The ADM guidelines and techniques
- How architecture governance contributes to the Architecture Development cycle
- The concepts of views and viewpoints and their role in communicating with stakeholders
- The concept of building blocks
- The key deliverables of the ADM cycle
- The TOGAF reference models

### Target Audience

This training is appropriate to the following audience:

- Individuals who require a basic understanding of the TOGAF 9 standard
- Professionals who are working in roles associated with an architecture project as those responsible for planning, execution, development, delivery and operation
- Architects who are looking for a first introduction to the TOGAF 9 standard
- Architects who want to achieve level 2 certification in a stepwise approach

## Program Structure and Outline

The program is delivered using a combination of instructor-led discussion, group activities, workshops and case study analysis, emphasizing practical implementation of the concepts discussed within the training.
